

# *The Economic Benefits of Municipal Light Plants*

**NEXTZERO**  
OUR GOAL: ZERO GHG  
EMISSIONS BY 2050

*See how much you saved over the last 18 years (2004-2022) by  
having a municipal light plant in West Boylston vs.  
an investor-owned public utility. Compare!*

NEXT ZERO is West Boylston's Residential Energy Efficiency and Conservation service. NEXT ZERO provides Energy Education, Home Energy Audits (HEA), assistance with Home Energy Improvements, ENERGY STAR® Appliance Rebates, and more to WBMLP customers. NEXT ZERO is funded through your low electricity rates. WBMLP provides these incentives and rebates while working to maintain the lowest rates possible. Learn more at <https://www.wbmlp.com>. Data provided by NEXT ZERO analysts.
