

Municipal Light Department

Town of West Boylston  
Massachusetts

Residential

M.D.P.U. #269  
Cancels M.D.T.E. #261

Availability

Single phase service under this rate is furnished through one meter for all domestic purposes in individual private residences or individual apartments, where the service is used on a year round basis.

Rate

Delivery Services	
Customer Charge	\$ 4.46
Distribution Charge	\$ 0.027624 per kwh
Transition Charge	\$ 0.049553 per kwh
Transmission Charge	\$ 0.021985 per kwh
Supplier Services	
Generation Charge	\$ 0.052219 per kwh

Off-Peak Water Heater Service

When a customer's entire hot water requirements are supplied by an electric storage type water heater of a type approved by the Department, arrangements will be made at the request of a customer to meter separately, electricity used by the hot water heater during Off-Peak hours designated by the Department. The rate for this separate meter will be:

Delivery Services	
Distribution Charge	\$ 0.020000 per kwh
Transition Charge	\$ 0.037825 per kwh
Transmission Charge	\$ 0.021985 per kwh
Supplier Services	
Generation Charge	\$ 0.052219 per kwh

## Services for Churches

Notwithstanding the availability clause of this rate, service will be furnished hereunder to a church and adjacent buildings owned by the church and operated in connection with the church.

## Discount

A discount of 10% will be allowed off the cost of Delivery and Supplier Service charges as computed from the above for each bill paid within 10 days after date of billing, provided that all bills previously rendered have been paid in full. Payment made by mail will be accepted for discount if properly postmarked within the discount period.

## Payment

Bills are due when rendered and must be paid within thirty days (30) days from the billing date. If a balance remains after sixty (60) days a 1-1/2 % per month interest will be added to the unpaid balance. On all accounts that are not paid in full within sixty (60) days from the billing date, collection and termination will be in accordance with regulations set by the M.D.P.U.. If disconnection follows, a charge of \$35.00 will be added for re-connecting the service. A \$25.00 fee will be charged for all returned checks, unless due to bank error.

## Apartment or Multiple Dwelling

When separate metering of individual apartments is not practicable, service may be furnished through a single meter, but the specified number of kilowatt-hours in each block and the minimum charges shall be multiplied by the number of apartment or dwellings connected to each meter.

## Purchase Power Adjustment

A purchase power adjustment, either a charge or a credit, shall be applied to all kilowatt-hours sold under this rate. Details of this adjustment are provided in the Purchase Power Adjustment Clause M.D.P.U. #275

## Hydropower Credit

A hydropower credit will be applied to all kilowatt-hours sold under this schedule. Details of this credit are provided in Hydropower Credit Clause, M.D.P.U. #276

Issued: July 20, 2009

Effective: August 2009

Purchase Power Adjustment

M.D.P.U. #275  
Cancels M.D.T.E. #267

Designation

Purchase Power Adjustment Clause

Applicable

To rate schedules identified as M.D.P.U. #'s 269, 270, 271, 272, 273, and 274.

Purchase Power Adjustment

There shall be added to or credited to each monthly bill an amount equal to the total kwh billed during the month multiplied by the Purchase Power Adjustment factor determined monthly as follows:

- A. Total purchased power cost including ISO interchange charged to Account 555 and 557 (\*) for the month divided by:
- B. Estimated kwh's to be sold during the month will be compared to:

Base period cost of purchased power per kwh sold, amounting to 0.114169 per kwh

The difference between the base cost and the monthly cost per kwh estimated to be sold would be applied in the monthly billing period. The Purchase power Adjustment (PPA) will be calculated as follows:

$$\text{PPA} = \frac{\text{(A)}}{\text{(B)}} \text{ minus } \$0.114169$$

(\*) An adjustment to the purchased power cost shall be made each quarter to reflect the difference between estimated and actual purchased power costs and kwh's sold in the prior quarter in order to recover or credit any under collection or over collection of purchased power charges.

Issued: July 20, 2009  
Effective: August 2009

Town of West Boylston  
Massachusetts

NYPA Hydropower Credit  
(PASNY)

M.D.P.U. #276  
Cancels M.D.T.E. #268

Applicable

To residential customers receiving service under rate schedules identified as  
M.D.P.U. # 269

NYPA Hydropower Credit (PASNY)

Residential customers will receive a credit equal to the number of kilowatt hours  
billed during the month, multiplied by the NYPA Hydropower Credit rate determined  
each month as follows:

$$\frac{PC}{PK} \times TK - \frac{TC}{RK} = \text{PASNY}$$

PASNY is the NYPA Hydropower Credit for the month;

- PC is the total purchased power cost as defined in M.D.P.U. #275 except NYPA
- TC is the total purchased power cost as defined in M.D.P.U. #275 with NYPA
- PK is the total kilowatt hours of power purchased for the month except NYPA
- TK is the total kilowatt hours of power for the month with NYPA
- RK is the estimated residential kilowatt hour sales for the month

Issued: July 20, 2009

Effective: August 2009
